

Mr. Allan Rose
Director, GW Engineers
284 Victoria Ave
Chatswood NSW 2067

Dear Allan,

After all the time and many projects that we at Bovis Lend Lease and GW Engineers have worked on together in rolling out the CBA and ANZ bank upgrades and refurbishments, I would like to record our appreciation for your support, focus and professional skill that you bring to our team.

There are several aspects of your service that we have particularly appreciated.

- Firstly, your responsiveness. Work within existing buildings frequently throws up surprises that must be resolved quickly and effectively to contain cost and time pressures. Your team is acutely aware of these pressures and has always responded quickly.
- Secondly, your technical solutions are thoroughly considered and practical. You have recognised that a good solution also encompasses buildability and has real cost and time ramifications.
- Finally your commitment to being a long term team member is very apparent.

Thank you for your contribution and we look forward to our continuing relationship.

Yours Sincerely

Andrew Murphy
