CHATSWOOD NSW 2067

Attention: Mr. Allan Rose

Dear Sir,

RE: Structural and Civil Engineering Consultancy

We take this opportunity to place on record the high level of satisfaction we express and our appreciation for the consultancy work you have provided for us on many of our projects.

Our association began in the early 1990's and since then we have worked together on many significant projects including:-

- Shopping Centre extension and multi-deck carpark in Corrimal 1995 - \$5m value
- Aged Care facility in Orange 2001 - \$7m value
- Aged Care facility on Central Coast 2005 - \$1.8m value
- Aged Care facility in Ermington 2005 - \$15m value
- Aged Care facility in Orange 2006 - \$10m value

We have welcomed this constant association because we appreciate the consistency in service we receive in dealing with the familiar faces from director level and senior engineer personnel.

We know that if ever we ring about any concern, the issue is dealt with immediately and thoroughly without ever having to chase the matter.

The structural engineering work is carried out meticulously and is thorough in dealing with all relevant issues including structural design, BCA compliance fire rating and buildability issues as well as coordination with services and other trades.

We acknowledge your professionalism and will continue to welcome your contributions to the joint working sessions that we have held with a building company in striving to find the most appropriate methods of construction and detailing at the working drawing stage.

We wish your company well in the future.

Yours faithfully,

GRAHAM MURRAY  
Director
